

## Open Up Your Heart

© 2024

Lyricist: Lauren Henley

In a world of chaos, where love is hard to find  
We found a connection that's one of a kind  
A love that defies the norms, it's beyond measure  
When we're together, it's a love filled with pleasure

Like a raging storm, yeah, our love takes hold  
Unbreakable, unstoppable, strong, and bold  
No matter the darkness, we light up the night  
Our love is a flame that burns oh so bright

This love that we share, it's a different kind  
A bond so strong, it's like no other we'll find  
When we're together, there's a fire ignited  
A love that's fierce, powerful, and united...

Every moment spent together feels like a rush  
Our hearts beating in sync, a feverish hush  
We laugh, we fight, we complement each other's flaws  
In love, we break the chains of societal laws

When we're apart, we crave each other's touch  
When we reunite, after missing us so much  
No distance can dim our love's blazing fire  
In each other's arms, we find our desire

This love that we share, it's a different kind  
A bond so strong, it's like no other we'll find  
When we're together, there's a fire ignited  
A love that's fierce, powerful, and united...

highs and lows, together we stand  
No challenge too great, with you, I understand  
Our love is a force that nothing can sever  
In this kind of love, we'll conquer forever

This love that we share, it's a different kind  
A bond so strong, it's like no other we'll find

When we're together, there's a fire ignited  
A love that's fierce, powerful, and united...

In this world of chaos, we've found something rare  
A love that's unmatched, a love beyond compare  
It's a different kind of love, together we thrive  
Forever entwined, until the end of our lives
