

When Your Truck has a Full Load

© 2023

Lyricist: Alain Levac

Everywhere, when the road is clear
Keep on truckin' music to hear
Driving, livin,' tunes' a playing
Step on the gas, hear what I'm saying
I work at Materiaux Pont-Masson now
It's cool drivin' those rigs anyhow
Haulin' construction gear in a boom truck
I show up at 5:00 AM, it don't suck

Yeah, now when your truck has a full load
Time is money when you hit the road
Can't get stuck in traffic, keep truckin'
We want the road bigger for my truck
Some days it's insane, it's just luck
You know, wrong directions, what the fuck

Weather is great I'm on my way in
It's cold, it's hot, for me today again
I fasten my load tight and pay my bills
Then release the brakes, it gives me thrills
I get a call," where are you Alain?"
"Where have you been what's going on?"
You're traveling in the wrong direction
The address changed to another section
Of the road, you'll have to go back too
But, keep on trucking, the whole way through

Yeah, now when your truck has a full load
Time is money when you hit the road
Can't get stuck in traffic, keep truckin'
We want the road bigger for my truck
Some days it's insane, it's just luck
You know, wrong directions, what the fuck

The streets too small to make that big turn
45 feet long, it's a lot to learn

But I gotta keep going ahead
No, I can't make a U turn instead
The roads too narrow to flip my path
Keep on truckin' and feel my wrath
I hope this is not some sorry joke
Keep on trucking, all you trucker folks

Yeah, now when your truck has a full load
Time is money when you hit the road
Can't get stuck in traffic, keep truckin'
We want the road bigger for my truck
Some days it's insane, it's just luck
You know, wrong directions, what the fuck
